Client say: "...the mixer in Hamburg admired your work a lot. He repeatedly said it's extremely well prepared, and a pleasure to mix. He just needs to adjust a few levels and all is flowing. So congratulations, and thanks again. I know you killed yourself over it, but at least it gets properly recognized..."

About me: I always try to practice the principle: 'whatever the smallest thing you do, always do it to the extreme with your best effort.' I believe this is the reason for the high standard of work I produce.
